LORO-X BOX ATTIKA HAUPT-NOT-KOMBI ROHR I

LORO-X BOX Attika main emergency combination pipe in pipe without upstand DN 100/50

Popis

LORO-X BOX B0772.004X parapet main-emergency combination system consisting of parapet main-emergency combination drain with pipe-in-pipe principle for gravity flow and siphonic flow with clamping flange without upstand, horizontal offset, T-piece for pipe-in-pipe, DN100 ventilation piece and DN50 closing plug, sliding flange DN100 for the connection of the vapour barrier, sealing elements and lubricant for the complete assembly of the drain up to the downpipe including DN100 pipe-in-pipe rain standpipe. This parapet siphonic drainage system must be supplemented by the pressure-resistant LORO-X downpipe in DN50 and DN100 in order to achieve the specified performance. Observe the DN50 inner pipe with special long socket when ordering the downpipe. Please ask your dealer or your LORO contact person. System performance and system shape according to specification sheet LX772 at www.loro.de with 4.5 l/s at 35 mm water level in case of main drainage and additional 8.2 l/s at 75 mm in case of emergency drainage, DN50 inner pipe, DN100 outer pipe
