CERTIFICATION MARK

Licence and directions for use

The mark above is valid for SINTEF Product Certificate No. 0372, and shows that Loro-X varmforsinket stål avløpsrør og deler, i dimensjon 40 – 200 mm is certified by SINTEF Building and Infrastructure and found to be in conformity with NS-EN 1123-1 og NS-EN 1123-2.

The mark may be used by the holder of the certificate for marking the product, the packaging or in material for product marketing. The mark will also be sent electronically in eps-format.

The mark must be used for the certified product only. The mark must not be used in a way that may lead to the impression that other, non-certified products from the same manufacturer are also covered by the certificate. SINTEF's logo must not be used.

When the certificate is no longer valid all use of the certification mark shall stop immediately.
